Summary

Transitioning from marketing to web development, I bring a diverse skill set of customer-centric approach, analytical skills, project management, creativity, and a passion for problem-solving to excel in coding and software development. Currently I'm immersed in mastering JavaScript and React driven by an unwavering commitment to crafting high-quality, user-friendly solutions.. I am actively seeking opportunities in web development roles to leverage my extensive experience and contribute to innovative projects. With over 7 years of proven expertise in digital marketing and brand management, I offer a solid foundation and a wealth of insights to enrich any team.
